

1968 ANNUAL INDEX

the tool and manufacturing engineer

SECTION ONE • **AUTHOR INDEX** • VOLUMES 60 AND 61

-A-

- Achler, Howard S.—Calculating Forces for Urethane Pressure Pads and Bars. Mar. p. 20
Agricola, K. R.—Die Concepts for Explosive Forming of Large Components. Mar. p. 38
Agricola, K. R.—Successful Explosive Forming Is Influenced by Die Design. Jan. p. 42
Arnold, William C.—X-Ray Gaging on the Production Line. Feb. p. 62

-B-

- Bagley, Joseph A.—EB Welding—Engineering Makes It Pay. Apr. p. 46
Bagley, Joseph A.—EB Welding Made Easier. June p. 46
Bagley, Joseph A.—EB Welding—Tips on Running a Successful Electron Beam Welding Shop. May p. 24
Bagley, Joseph A.—EB Welds—Designing for Quality. Dec. p. 42
Bagley, Joseph A.—When Designing for Production EB Welding May Reduce Costs. Nov. p. 55
Barry, George R.—New Use for Maraging Steel. Nov. p. 46
Bates, Charles—Low-Alloy Age-Hardenable Steel. July p. 71
Beighler, C. S.—Random Walk Acceptance Sampling. Nov. p. 26
Bellows, Guy—Effects of ECM on Surface Integrity. Sept. p. 66
Benkelman, William D.—Take the Guesswork out of Process Selection. Feb. p. 68
Bisseggia, Dominic T.—Attachment Turns Lathe into Rapid Threader. Mar. p. 26
Brown, Hugh—Cutter Diameter Compensation. Apr. p. 112
Busch, Ted—The Mess in Surface Measurements. Jan. p. 54

-C-

- Campbell, Norman J.—Cemented Carbides—Matching the Tool to the Job (Part 1). July p. 46
Campbell, Norman J.—Cemented Carbides—Matching the Tool to the Job (Part 2). Aug. p. 56
Carlson, Robert E.—A Look at Four-Slide Welding Processes. July p. 38
Carpenter, William P.—Add-On Rotary Table Extends N/C Capability. Dec. p. 18
Chepko, Frank E.—Know-How Pays Off in Steel Wire Fabrication. Jan. p. 26
Christopher, John—Analytical Optimization of Machining. Dec. p. 69

-D-

- Datsko, J.—Thermal Aspects of Machinability. Aug. p. 63

- Delmonte, John—Selecting Plastics for High Temperature Tooling. Apr. p. 130
DeWitt, T. E.—Economical Fabrication of King-Size Structures. May p. 56
Doehring, R. C.—Solid Lubricants Ease the Way in Metalforming. Sept. p. 18

-F-

- Feinberg, Bernard—Goodbye to Tape? May p. 18
Feinberg, Bernard—Special Chuck Goes Universal. Mar. p. 52

-G-

- Galimberti, James M.—Reasons for Carbide Tool Failure. Nov. p. 14
Giordano, Felix M.—Adaptive Controls at Work (A Play in One Act) Feb. p. 52
Giordano, Felix M.—Adaptive Controls are Here! July p. 30
Giordano, Felix M.—B & S Develops New Tool Steel. Sept. p. 22
Giordano, Felix M.—Machine Tools Italian Style. Dec. p. 74
Giordano, Felix M.—N/C Puts Its Stamp on Metalworking Equipment. June p. 18
Giordano, Felix M.—New Material Promises Long Tool Life. Apr. p. 20
Gormly, M. W.—Wasted Capability—the Real Challenge in Grinding. Sept. p. 36
Grosvenor, David E.—Compact Centerless Grinds "Hot" Materials. Nov. p. 22
Gumfory, J. M.—Hydraulic Bulging Stretches Forming Capability. Jan. p. 36

-H-

- Hanan, D. N.—Versatile 52100 Steels. Jan. p. 62
Haroian, Haygus—Cutting Tool Teamwork Pays Off. June p. 52
Harper, Ronald G.—Steel-Bonded Carbides: Long-Life Tooling Material. July p. 62
Harris, Homer D.—Lapping with Diamonds. Feb. p. 36
Hasz, John R.—Dynamic Stiffness of Machine Tools. Nov. p. 64
Hauck, James C.—Control Condition to Get the Most from Diamond Wheels. Dec. p. 56
Hill, Kermit J.—If You Have Decided on EDM. Apr. p. 138
House, A. L.—Organizing a Complete Manufacturing Line. July p. 54

-J-

- Jones, J. Franklin—Gear Shaper Tool Life Evaluation. Dec. p. 14

-K-

- Kelso, Thomas D.—Perfect Match: Fluidic Controls and Air Gaging. July p. 20

- Kelso, Thomas D.—Stress Relief by Vibration. Sept. p. 48
Kelso, Thomas D.—Supplying the Spark for EDM. Oct. p. 58
King, Fred L.—EDM Goes Adaptive. June p. 36
King, Fred L.—Implications of Adaptive Control. May p. 68
Krieg, Adrian H.—Portable Power Tools are Different. May p. 52

-L-

- Le Roux, A. N.—Thin-Section Bearings Simplify Machine Design. June p. 58

-M-

- Mudhar, J. S.—Economic Justification of Jigs and Fixtures. Apr. p. 54
Mudhar, J. S.—Graphs Determine Economics of Jigs and Fixtures. Aug. p. 24
Muser, C. V.—Economical Fabrication of King-Size Structures. May p. 56

-N-

- Nicks, J. E.—When to Go N/C. Apr. p. 26
Nyström, Robert G.—Anaerobic Compounds for Assembly. Dec. p. 24

-O-

- Obeda, Edward G.—Ultrasonic Assembly of Thermoplasts. Mar. p. 60
Ogden, Robert J.—Tooling Up for Aluminum Screw Machining. July p. 14
Olson, Harlan—Preforms for Better Brazing. Jan. p. 46
Ostwald, Phillip F.—An Unconventional Chip-Breaker Design. June p. 65
Ott, Joe—High Volume Electron Beam Welding. Aug. p. 40

-P-

- Palkie, C. R.—Vinyl Dispersions Make Versatile Coatings. June p. 26
Pentland, William—Economic Machining Optimizes Profit. Oct. p. 36
Pettigrew, Dave—Consider Seamless Steel Tubing for Economic Assembly. Dec. p. 62
Pettigrew, Dave—Seamless-Steel Tubing Shapes Up. Nov. p. 40
Pirrello, Leo—Shape Up with Electro-plated Diamond Tools. Sept. p. 54
Pomazal, Jesse W.—A TIG Welder for TIG Welding. Aug. p. 19
Portney, Joseph—Machining Malleable Iron. Mar. p. 44

—R—

- Radio, Michael R.—Multilead EDM Sparks Increased Productivity. Feb. p. 20
 Ripple, John W.—Control Conditions to Get the Most from Diamond Wheels. Dec. p. 56
 Rodarmer, Kenneth W.—An Engineering Approach to Vibratory Finishing. Oct. p. 20
 Rose, Charles H.—Attachment Turns Lathe into Rapid Threader. Mar. p. 26

—S—

- Schey, John A.—Press Speeds and Lubricants Affect Forging Quality. Dec. p. 36
 Sharpe, Ernest—Smooth-Edge Blanking. Apr. p. 38
 Slawson, Kenneth L.—Computer Control Adds Flexibility to N/C. Mar. p. 48
 Stearns, James B.—A TIG welder for TIG Welding. Aug. p. 19
 Stock, A. J.—Solid Lubricants Ease the Way in Metalforming. Sept. p. 18
 Stoekli, Oscar W.—Smooth-Edge Blanking. Apr. p. 38
 Strickland, Royce M.—Threading with Carbide Chasers (Reference Sheet) Oct. p. 68
 Strohecker, Daniel E.—Swaging Today. May p. 36
 Sundahl, Edwin G.—Solving a Titanium Fabrication Problem. June p. 40

—T—

- Terrell, M. P.—Random Walk Acceptance Sampling. Nov. p. 26
 Throop, James W.—Sodium Chlorate for ECM Cavity Sinking. Jan. p. 70
 Totsuka, Yasushi—Measure to Microns with Mairé Fringes. Aug. p. 28
 Trucks, Dr. H. E.—Antifriction Bearings. May p. 44
 Turner, Joseph—Tips to Successful Bulging with Urethane Rod. Sept. p. 14

—V—

- van der Burgt, J. H. G.—Die Modifications Control Springback in Bending. Oct. p. 26
 van der Burgt, J. H. G.—High Volume Forming of Complex Parts. Aug. p. 15
 van der Burgt, J. H. G.—Universal Lock-Seam Tooling Increases Four-Slide Versatility. Nov. p. 36

—W—

- Wallace, Paul W.—Press Speeds and Lubricants Affect Forging Quality. Dec. p. 36
 Weller, E. J.—Broadnose Machining Makes A Comeback. Feb. p. 24
 Weller, E. J.—Lubricating the Back Side of the Chip. May p. 75
 White, Harry—High G Media Lower Finishing Costs. Apr. p. 142
 Willis, Charles R.—Computers in Production Control. Aug. p. 46

—Z—

- Zilli, Robert J.—Diatomite: Natural Filter for Fluids. Mar. p. 56
 Zlatin, Normal—Analytical Optimization of Machining. Dec. p. 69

SECTION TWO • SUBJECT INDEX • VOLUMES 60 AND 61

ABRASIVES

- Deflashing Delicate Parts, July p. 10*
 Guide to Free-Abrasive Machining (Reference Sheet) Sept. p. 62

ADAPTIVE CONTROL

- Adaptive Controls Are Here! July, p. 30
 Adaptive Controls at Work, Feb. p. 52
 Adaptive Control of Milling Machines, Oct. p. 75*
 EDM Goes Adaptive, June, p. 36
 Implications of Adaptive Control, May p. 68

ADHESIVES

- Anaerobic Compounds for Assembly, Dec. p. 24
 Assembly with Adhesives, August p. 9*
 Shafts and Rotors Bonded Adhesively, June p. 14*

ALLOYS

- Dispersion Strengthening, Feb. p. 72*
 New Cu-Ni Alloy Resists Corrosion, Feb. p. 40
 Versatile 52100 Steels, January p. 62

ALUMINUM

- Aluminum Finishes and Coatings (Reference Sheet) April p. 150
 Design, Preparation, and Assembly of Brazed Aluminum Joints, August p. 60
 Tooling up for Aluminum Screw Machining, July p. 14

ANGLE MEASURING

- Measurement of Angles, December p. 81

ASSEMBLY MACHINES AND TOOLS

- Assembly Robots, May p. 70*
 Folding Rules Assembled Automatically, September p. 13*
 Giant Automatic Riveter, July p. 10*

ASSEMBLY METHODS AND PARTS

- Anaerobic Compounds for Assembly, December p. 24
 Consider Seamless Steel Tubing for Economic Assembly, December p. 62
 High Volume Electron Beam Welding, August p. 40
 Self-Tapping Screws in Thermoplastics (Reference Sheet), December p. 66

BEARINGS

- Antifriction Bearings, May p. 44
 Thin-Section Bearings Simplify Machine Design, June p. 58

BLANKING

- Smooth-Edge Blanking, April p. 38

BONDING

- Adhesive Bond Acts as Chem Mill Stop, February p. 44

BRAZING

- Design, Preparation, and Assembly of Brazed Aluminum Joints, August p. 60
 Preforms for Better Brazing, January p. 46

CARBIDE TOOLS AND CARBIDES

- Cemented Carbides—Matching the Tool to the Job (Part 1), July p. 46
 Cemented Carbides—Matching the Tool to the Job (Part 2), August p. 56
 Reasons for Carbide Tool Failure, November p. 14
 Steel-Bonded Carbides: Long-Life Tooling Material, July p. 62
 Threading with Carbide Chasers (Reference Sheet), October p. 68

CHEMICAL MACHINING

- Adhesive Bond Acts as Chem Mill Stop, February p. 44

CHIP CONTROL

- An Unconventional Chip-Breaker Design, June p. 65

CLEAN ROOMS

- The Human Factor in Clean Rooms, June p. 75*

COATINGS

- Metallizing Surfaces Metals, October p. 13
 Powder Coatings, November p. 70*
 Rubber Protects ICBM Controls, March p. 14*
 Vinyl Dispersions Make Versatile Coatings, June p. 26

COLD WORKING

- Cold Drawn Sections for Pump Parts, March p. 12*

COMPOSITES

- Fiber Composites, August p. 70*

COMPUTER APPLICATIONS

- Adaptive Controls at Work, February p. 52
 Computer Control Adds Flexibility to N/C. March p. 48
 Computer-Controlled Transfer Machine, September p. 11*

Computers in Production Control, August p. 46
 Computerized Production, February p. 13*
 Computer Tests Computers, June p. 12*
 Goodbye to Tape?, May p. 18
 N/C and Computer Time-Sharing, July p. 9*
 New Approaches Increase Efficiency of Injection Molding Machine, October p. 64

CONTROLS AND MOTORS

Adaptive Controls at Work, February p. 52
 A TIG Welder for TIG Welding, August p. 18
 Attachment Turns Lathe into Rapid Threader, March p. 26
 Implications of Adaptive Control, May p. 68

COST CONTROL AND ESTIMATING

Economic Justification of Jigs and Fixtures, April p. 54
 Economic Machining Optimizes Profit, October p. 36
 Graphs Determine Economics of Jigs and Fixtures, August p. 24
 When to Go N/C, April p. 26

CUTTERS AND CUTTING

Notching Complex Shapes, March p. 11*
 Cutting Curved Surfaces, January p. 77*
 Cutting Tool Temperatures, January p. 77*
 Broadnose Machining Makes a Comeback, February p. 24
 Flame Cutting Beats Machining, January p. 13*
 Trim Sheet Faster, April p. 124

CUTTING FLUIDS

Diatomite: Natural Filter for Fluids, March p. 56
 Lubricating the Back Side of the Chip, May p. 75

CUTTING TOOLS

An Unconventional Chip-Breaker Design, June p. 65
 Cutter Diameter Compensation, April p. 112
 Cutting Tool Teamwork Pays Off, June p. 52
 Expansion of a Cutting Tool, April p. 155*
 Gear Shaper Tool Life Evaluation, December p. 14
 New Material Promises Long Tool Life, April p. 20

DESIGN

Antifriction Bearings, May p. 44
 Drafting by N/C, January p. 72*
 Know-How Pays Off in Steel Wire Fabrication, January p. 26
 Preforms for Better Brazing, January p. 46
 Thin-Section Bearings Simplify Machine Design, June p. 58
 When Designing for Production EB Welding May Reduce Costs, November p. 54

DIAMOND TOOLS

Control Conditions to Get the Most from Diamond Wheels, December p. 56
 Lapping with Diamonds, February p. 36
 Shape up with Electroplated Diamond Tools, September p. 54

DIE CASTING

Die Casting of Ferrous Metals, July p. 60*
 Magnesium Die Castings, November p. 72*
 Tungsten Die Casting Tools, May p. 70*

DIES

Calculating Forces for Urethane Pads and Bars, March p. 20
 Die Concepts for Explosive Forming of Large Components, March p. 38
 Dies for Diecasting, August page 71*
 EDM Joins the Giants, October p. 42
 Lapping with Diamonds, February p. 36
 New Use for Maraging Steel, November p. 46
 Punch & Die Clearances (Reference Sheet), February p. 78

DIE DESIGN

Calculating Forces for Urethane Pads and Bars, March p. 20
 Die Modifications Control Springback in Bending, October p. 26
 High Volume Forming of Complex Parts, August p. 14
 Punch & Die Clearances (Reference Sheet), February p. 78
 Successful Explosive Forming Is Influenced by Die Design, January p. 42

DRAWING

Expansion Drawing, February p. 81*

DRILLING

Drill Speed Control, December p. 12*
 Drilling Time Cut 80 Per Cent, June p. 11*
 Gundrill—Nose Angles and Troubleshooting (Reference Sheet), March p. 74

ELECTROCHEMICAL MACHINING

ECM Deburring, April p. 164*
 Effects of ECM on Surface Integrity, September p. 66
 Sodium Chlorate for ECM Cavity Sinking, January p. 70
 Studying the ECM Process, March p. 79*

ELECTRICAL DISCHARGE MACHINING

EDM Cuts Mold Cost, May p. 11*
 EDM Goes Adaptive, June p. 36
 EDM Joins the Giants, October p. 42
 Multilead EDM Sparks Increased Productivity, February p. 20
 If You Have Decided on EDM, April p. 138
 Supplying the Spark for EDM, October p. 58

ELECTRODES

If You Have Decided On EDM, April p. 138
 Multilead EDM Sparks Increased Productivity, February p. 20

ELECTROLYTES

Effects of ECM on Surface Integrity, September p. 66

ELECTRON BEAM MACHINING AND WELDING

EB Welding—Engineering Makes it Pay, April p. 46

EB Welding Made Easier, June p. 46
 EB Welding—Tips on Running a Successful Electron Beam Welding Shop, May p. 24
 EB Welds—Designing for Quality, December p. 42
 High Volume Electron Beam Welding, August p. 40
 When Designing for Production EB Welding May Reduce Costs, November p. 54

ELECTROPLATING

Selective Plating, November p. 11*

ENGINEERS

The Manufacturing Engineer Today and Tomorrow, October p. 14

EXPLOSIVE FORMING

Die Concepts for Explosive Forming of Large Components, March p. 38
 Explosive Compaction, March p. 77*
 Successful Explosive Forming Is Influenced by Die Design, January p. 42

EXTRUSION

Extrusion Die Cleaning, November p. 12*

FASTENERS

Allowable Surface Discontinuities of Bolts and Screws (Reference Sheet), May p. 72
 Allowable Surface Discontinuities of Nuts (Reference Sheet), June p. 62

FILLER METALS

EB Welding Made Easier, June p. 46

FINISHES

Aluminum Finishes and Coatings (Reference Sheet), April p. 150

FINISHING

An Engineering Approach to Vibratory Finishing, October p. 20
 Centrifugal Barrel Finishing, March p. 80*
 High G Media Lower Finishing Costs, April p. 142
 Lapping with Diamonds, February p. 36
 Precision Finishing, May p. 71*
 Vacuum Plating by Sputtering, August p. 9*

FLAME CUTTING

Flame Cutter Adapter, May p. 12*

FLUIDICS

Fluidic Packaging Machine, November p. 12*
 Perfect Match: Fluidic Controls and Air Gaging, July p. 20

FORGING

Press Speeds and Lubricants Affect Forging Quality, December p. 36

FORMING

Adhesive Bond Acts as Chem Mill Stop, February p. 44

Die Modifications Control Springback in Bending, October p. 26
 Electromagnetic Forming, October p. 76*
 High Volume Forming of Complex Parts, August p. 14
 Hydraulic Bulging Stretches Forming Capability, January p. 36
 Hydrostatic Drawing, September p. 65*
 Power Spinning, September p. 65*
 Seamless-Steel Tubing Shapes Up, November p. 40
 Shot Peen Forming, August p. 70*
 Solid Lubricants Ease the Way in Metal-forming, September p. 18
 Stretch Draw Forming, December p. 11*
 Successful Explosive Forming is Influenced by Die Design, January p. 42
 Swaging Today, May p. 36
 3-D Contour Forming, February p. 72*
 Thermoforming of ABS Plastics (Reference Sheet), November p. 60
 Tips to Successful Bulging with Urethane Rod, September p. 14
 Ultrahigh-Pressure Vessels, April p. 156*
 Universal Lock-Seam Tooling Increases Four-Slide Versatility, Nov. p. 36
 Wrinkle-Free Bending of Corrugated Metal, Aug. p. 10

FOUR-SLIDE MACHINES

A Look at Four-Slide Welding Processes, July p. 38

GAGING

Areas of Manufacturing Engineering Inspection and Quality Control, Jan. p. 20
 X-Ray Gaging on the Production Line, Feb. p. 62

GRINDING FLUIDS

Wasted Capability—The Real Challenge in Grinding, Sept. p. 36

GRINDING

Centerless Grinding/Automatic Cycle Milling, Sept. p. 12*
 Compact Centerless Grinds "Hot" Materials, Nov. p. 22
 Control Conditions to Get the Most from Diamond Wheels, Dec. p. 56
 Giant Belt Grinder, May p. 16*
 High-Pressure Grinding, Apr. p. 166*
 Shape Up with Electroplated Diamond Tools, Sept. p. 54
 Wasted Capability—The Real Challenge in Grinding, Sept. p. 36
 Wheel Dressing Technique, May p. 14*

HARDENING

Low-Alloy, Age-Hardenable Steel, July p. 71

HARDNESS TESTING

High-Speed Hardness Testing, Nov. p. 11*

HEAT TREATING

Versatile 52100 Steels, Jan. p. 62

HYDRAULIC SYSTEMS AND EQUIPMENT

Hydraulic Bulging Stretches Forming Capability, Jan. p. 36

INSPECTION

Allowable Surface Discontinuities of Nuts (Reference Sheet), June p. 62

INSPECTION EQUIPMENT

Automatic Circuit Testing, Apr. p. 14
 Measure to Microns with Moiré Fringes, Aug. p. 28
 Perfect Match: Fluidic Controls and Air Gaging, July p. 20

INSPECTION METHODS

Areas of Manufacturing Engineering Inspection and Quality Control, Jan. p. 20
 EB Welds—Designing for Quality, Dec. p. 42
 Random Walk Acceptance Sampling, Nov. p. 26
 The Mess in Surface Measurement, Jan. p. 54
 X-Ray Gaging on the Production Line, Feb. p. 62

INSTRUMENTATION

Automatic Size Control in Production Boring, Dec. p. 48
 IC Readout System Eliminates Leadscrew Dependency, Nov. p. 18

INVESTMENT CASTING

Polystyrene for Investment Casting, Dec. p. 80

JIGS AND FIXTURES

EB Welding—Engineering Makes it Pay, Apr. p. 46
 Economic Justification of Jigs and Fixtures, Apr. p. 54
 Graphs Determine Economics of Jigs and Fixtures, Aug. p. 24
 Preforms for Better Brazing, Jan. p. 46

JOINTS AND JOINING

Design, Preparation, and Assembly of Brazed Aluminum Joints, Aug. p. 60
 Economical Fabrication of King-Size Structures, May p. 56
 Know-How Pays Off in Steel Wire Fabrication, Jan. p. 26
 Preforms for Better Brazing, Jan. p. 46
 Ultrasonic Assembly of Thermoplasts, Mar. p. 60

LASERS

Laser Drills Diamond Dies, Oct. p. 12*
 Spherical Laser Pump, Jan. p. 13

LATHES

Attachment Turns Lathe into Rapid Threader, Mar. p. 26
 New Highs in Turning Productivity with N/C Turning Center, Jan. p. 32

LUBRICATION

Antifriction Bearings, May p. 44
 Lubricating the Back Side of the Chip, June p. 75
 Press Speeds and Lubricants Affect Forging Quality, Dec. p. 36
 Solid Lubricants Ease the Way in Metal-forming, Sept. p. 18
 Solid Lubricants, July p. 60*

MACHINABILITY AND MACHINE DATA RATING

Thermal Aspects of Machinability, Aug. p. 63

MACHINE TOOLS

Dynamic Stiffness of Machine Tools, Nov. p. 64
 Machine Tools Italian Style, Dec. p. 74
 New Highs in Turning Productivity with N/C Turning Center, Jan. p. 32
 Thin-Section Bearings Simplify Machine Design, June p. 58

MACHINING

Broadnose Machining Makes a Comeback, Feb. p. 24
 Hot Machining, Feb. p. 81*
 N/C Automatic, Feb. p. 48
 Two-Slide Automatic Solves Problem, Feb. p. 13*

MACHINING DATA

Analytical Optimization of Machining, Dec. p. 69
 Cemented Carbides—Matching the Tool to the Job (Part 2), Aug. p. 56
 Guide to Free-Abrasive Machining (Reference Sheet), Sept. p. 62
 Machining Malleable Iron, Mar. p. 44
 Tooling up for Aluminum Screw Machining, July p. 14

MAGNETIC EQUIPMENT

Magnetic Pulse Forming, July p. 60*

MALLEABLE IRON

Machining Malleable Iron, Mar. p. 44

MANAGEMENT

Information Tool for Industry, Feb. p. 14*
 Program Management, Nov. p. 72*

MANUFACTURING COSTS

Economic Machining Optimizes Profit, Oct. p. 36

MANUFACTURING MANAGEMENT

Computers in Production Control, Aug. p. 46
 The Manufacturing Engineer—Today and Tomorrow, Oct. p. 14

MANUFACTURING PLANNING

Boldness Pays Off, July p. 9*
 Organizing a Complete Manufacturing Line, July p. 54

MARAGING STEEL

New Use for Maraging Steel. Nov. p. 46

MEASUREMENT AND MEASURING METHODS

Coordinate Measuring Machines. Dec. p. 80*
Measure to Microns with Moiré Fringes. Aug. p. 28
Measuring Flare Angles. Oct. p. 12*

MEASURING INSTRUMENTS

Measuring Spline Wear. Oct. p. 12*

MECHANICAL PROPERTIES

New Cu-Ni Alloy Resists Corrosion. Feb. p. 40
Table of Plastic Properties (Reference Sheet). Jan. p. 74

METROLOGY

Areas of Manufacturing Engineering-Inspection and Quality Control. Jan. p. 20
IC Readout System Eliminates Leadscrew Dependency. Nov. p. 18
Precision Measurements. Mar. p. 76*
The Mess in Surface Measurement. Jan. p. 54

MILLING

Bridge Slide Milling. Oct. p. 11*
Changing Milling Cutters. July p. 9*
Large Face Mill Withstands Shock Cuts. Jan. p. 16*

MOLDING

New Approaches Increase Efficiency of Injection Molding Machine. Oct. p. 64

NICKEL ALLOYS

Analytical Optimization of Machining. Dec. p. 69
Engineering Properties of Sintered Nickel Steels (Reference Sheet). July p. 68

NUMERICAL CONTROL

Add-On Rotary Table Extends N/C Capability. Dec. p. 18
N/C Puts Its Stamp on Metalworking Equipment. June p. 18
When to Go N/C. Apr. p. 26

NUMERICALLY CONTROLLED MACHINES

Darting by N/C. Jan. p. 72*
Low-Cost Machining Center. Oct. p. 46
N/C Automatic. Feb. p. 48
N/C Piercing. Apr. p. 13*
N/C Puts Its Stamp on Metalworking Equipment. June p. 18
New Highs in Turning Productivity with N/C Turning Center. Jan. p. 32

NUMERICALLY CONTROLLED MACHINING

Computerized Production. Feb. p. 13*
Cutter Diameter Compensation. Apr. p. 112
Hydraulic Bulging Stretches Forming Capability. Jan. p. 36

NUMERICAL CONTROL SYSTEMS

Computer Control Adds Flexibility to N/C. Mar. p. 48
Goodbye to Tape? May p. 18
Remote Machine Control. May p. 11*

PLASTICS

Forming Solid Thermoplastics. June p. 76*
Production of Plastic Parts. Feb. p. 73*
Self-Tapping Screws in Thermoplastics (Reference Sheet). Dec. p. 66
Table of Plastic Properties (Reference Sheet). Jan. p. 74
Take the Guesswork out of Process Selection. Feb. p. 68
Thermoforming of ABS Plastics (Reference Sheet). Nov. p. 60
Ultrasonic Assembly of Thermoplasts. Mar. p. 60
Vacuum Forming of Thermoplastics. Oct. p. 74*
Vinyl Dispersions Make Versatile Coatings. June p. 26

PLASTIC DIES

Calculating Forces for Urethane Pads and Bars. Mar. p. 20

PLASTIC TOOLING

Cold Cast Materials. Nov. p. 71*
Plastic Disposable Tools. July p. 12*
Selecting Plastics for High Temperature Tooling. Apr. p. 130
Tips to Successful Bulging with Urethane Rod. Sept. p. 14

PLATING

Selective Plating Cuts Navy Costs. Jan. p. 14*
Thin-Wall Fabrication. Mar. p. 11*

POWDER METALLURGY

Forming Refractory Metals. June p. 11*
P/M Parts for Differentials. Mar. p. 16*
P/M Today and Tomorrow. Apr. p. 167*

PRESSES AND PRESSWORKING

Smooth-Edge Blanking. Apr. p. 38

PROCESS PLANNING

Take the Guesswork out of Process Selection. Feb. p. 68

PRODUCT DESIGN

EB Welds—Designing for Quality. Dec. p. 42

PUNCHES

Punch & Die Clearances (Reference Sheet). Feb. p. 78
Smooth-Edge Blanking. Apr. p. 38

QUALITY CONTROL

Areas of Manufacturing Engineering-Inspection and Quality Control. Jan. p. 20
Automatic Size Control in Production Boring. Dec. p. 48
X-Ray Gaging on the Production Line. Feb. p. 62

ROLLING

Deep Rolling. Sept. p. 65*

SAFETY

Sodium Chlorate for ECM Cavity Sinking. Jan. p. 70

SCHEDULING

Computers in Production Control. Aug. p. 46

SOLDERING

Low Melting Point Alloy Solder. Mar. p. 16*

SPRINGBACK CONTROL

Die Modifications Control Springback in Bending. Oct. p. 26

STAMPING

High Volume Forming of Complex Parts. Aug. p. 14

STANDARDS AND STANDARDIZATION

Allowable Surface Discontinuities of Bolts and Screws (Reference Sheet). May p. 72

STEELS

Low Alloy, Age-Hardenable Steel. July p. 71
Superplastic Stainless. Jan. p. 16*
Versatile 52100 Steels. Jan. p. 62

STRESS ANALYSIS

Photostress Analysis. Nov. p. 13*

STRESS RELIEF

Stress Relief by Vibration. Sept. p. 48

SURFACE FINISHES

Description of Surfaces. Jan. p. 77*
Finish Standards. Jan. p. 73*
Roller Finishing. Jan. p. 73*
The Mess in Surface Measurement. Jan. p. 54

SURFACE INSPECTION

The Mess in Surface Measurement. Jan. p. 54

SWAGING

Swaging Today. May p. 36

THERMAL PROPERTIES

Thermal Aspects of Machinability. Aug. p. 63

THREADING

Asymmetric Threads. Aug. p. 9*
Attachment Turns Lathe into Rapid Threader. Mar. p. 26
Profiler Doubles as Thread Mill. Sept. p. 11*
Screw Threads. Dec. p. 81*
Thread Rolling. June p. 76*
Threading with Carbide Chasers (Reference Sheet). Oct. p. 68
Threads Huge Nut. Apr. p. 16*

TITANIUM ALLOYS

Forming Titanium. Apr. p. 166*
Solving a Titanium Fabrication Problem. June p. 40

TOOLS AND TOOL SHOPS

Air Tool Maintenance. Mar. p. 14*

TOOL DESIGN

Broadnose Machining Makes a Comeback. Feb. p. 24
Cemented Carbides-Matching the Tool to the Job (Part 1). July p. 46
Cutting Tool Teamwork Pays Off. June p. 52
Gundrill-Nose Angles and Troubleshooting (Reference Sheet). Mar. p. 74
Threading with Carbide Chasers (Reference Sheet). Oct. p. 68

TOOL LIFE AND WEAR

Gear Shaper Tool Life Evaluation. Dec. p. 14

Reasons for Carbide Tool Failure. Nov. p. 14
Thermal Aspects of Machinability. Aug. p. 63

TOOL PERFORMANCE

Broadnose Machining Makes a Comeback. Feb. p. 24
Cemented Carbides-Matching the Tool to the Job (Part 2). Aug. p. 56
Portable Power Tools are Different. May p. 52
Steel-Bonded Carbides: Long-Life Tooling Material. July p. 62

TOOL STEELS

B&S Develops New Tool Steel. Sept. p. 22
New Material Promises Long Tool Life. Apr. p. 20
Versatile 52100 Steels. Jan. p. 62
White Layer on HSS Tools. Apr. p. 155*

TOOLING

Broadnose Machining Makes a Comeback. Feb. p. 24
EB Welding-Tips on Running a Successful Electron Beam Welding Shop. May p. 24
Portable Power Tools are Different. May p. 52
Solving a Titanium Fabrication Problem. June p. 40
Universal Lock-Seam Tooling Increases Four-Slide Versatility. Nov. p. 36

TRAINING, INDUSTRIAL

Programmed Instruction. Nov. p. 70*

TUBING AND TUBE FITTINGS

Consider Seamless Steel Tubing for Economic Assembly. Dec. p. 62
Rocket Tube Sizing. May p. 12*
Seamless Steel Tubing Shapes Up. Nov. p. 40

TURNING

Negative Approach with Positive Results. June p. 14*

New Highs in Productivity with N/C Turning Center. Jan. p. 32
Special Chuck Goes Universal. Mar. p. 52

VIBRATION

An Unconventional Chip-Breaker Design. June p. 65
Dynamic Stiffness of Machine Tools. Nov. p. 64
Machine Tool Chatter. July p. 61*
Stress Relief by Vibration. Sept. p. 48
Ultrasonic Assembly of Thermoplasts. Mar. p. 60

VIBRATORY FINISHING

An Engineering Approach to Vibratory Finishing. Oct. p. 20

WELDING

A Look at Four-Slide Welding Processes. July p. 38
A TIG Welder for TIG Welding. Aug. p. 18
Economical Fabrication of King-Size Structures. May p. 56
Five-Axis N/C Welding. Oct. p. 11*
HF Resistance Welding of Finned Tubes. Mar. p. 76*
High Volume Electron Beam Welding. Aug. p. 40
Improved Seam Welding. Feb. p. 14*
Know-How Pays Off in Steel Wire Fabrication. Jan. p. 26
Plasma Arc Welding. Jan. p. 72*
Repairing Jet Engine Blades. Dec. p. 13*
Salvaging Broken Tie Bolts. Sept. p. 11*
Welder Assembles Finned Tubes. Sept. p. 12*
Welding Wire Pack. Dec. p. 11*

WIRE

Know-How Pays Off in Steel Wire Fabrication. Jan. p. 26

WORKHOLDERS

Special Chuck Goes Universal. Mar. p. 52

Single copies of this index available
on request as long as the supply lasts.
